# ESTUDIO MARISCAL

---

**We applied the collage artistic technique to formalise two impacting seats.**

To formalise the Alessandra armchair and the Saula Marina sofa, the design was inspired by organic shapes, fleeing from straight lines and from geometry. Alessandra plays with collage, with the cutting up of shapes and patchwork technique. They are pieces of furniture that transcend their function: they have been conceived more as an image than as pure volume. They both express a way of thinking and relating to the user and the space that he or she inhabits. This is why their appearance is so impacting and, in the end, so timeless.
