# ESTUDIO MARISCAL

---

**We designed an organic shape to offer warmth to outdoor areas.**

This lamp has a silhouette that is part of Javier Mariscal's visual language. Its silhouette is round, organic, like a ripe piece of fruit or an expectant woman. It is a shape that expresses generosity. In addition, this organic shape is highly suitable for being moulded in plastic. The shade has a flat back and its two poles are cut in a straight line, as if the piece had been extracted from a quarry. The foot and the base are metallic, made of cast iron painted black.

It is manufactured for outdoor use, and can tolerate the rain and solar radiation.
