# ESTUDIO MARISCAL

---

**We reviewed, reorganised and upturned our work to find new meanings in it.**

Drawing Life offers a new look at Estudio Mariscal's professional career. The book has served to reorganise the work and upturn it all, to review it and revise it and thus find new meanings. It is the same method that is applied to each of the projects, which, in fact, are never completely finished, they are always alive. The layout is open and somewhat chaotic, without being completely so, with gestural interventions by Mariscal, who drew over his own works in order to reinvent them and to explain what the creative process is like. An open process, without set rules, which is open to innovation and is susceptible to reflection, such as the one that is made over 300 pages with 400 illustrations in Drawing Life.
